The Munich University Hospital of the Ludwig-Maximilians-University is one of the largest and powerful University Hospitals in Germany and Europe. 45 specialist departments, departments and institutes with excellent research and teaching enable patient care at the highest medical stage.

The Dr. von Hauner Academy and its newly established Else Kröner Fresenius Clinical Research School with the title

“Rare diseases of the immune system - from pathophysiology to new therapies”

invite applications for a 2-3 year period fellowship position.

The program is open for residents in pediatrics and junior clinicians who wish to specialize in basic and translational science of rare diseases of the immune system. Candidates will be chosen based on their previous merits and potential to assume leadership positions in the future.

Candidates must submit their CV and 2 letters of recommendation by September 30th, 2013. Severely handicapped persons are privileged with otherwise same qualification.

For further questions, please contact Dr. Christina Wolschner, Dr. von Haunersches Kinderspital der LMU München, Lindwurmstraße 4, D-80337 München (christina.wolschner@med.uni-muenchen.de).
